*"I did not spend [4 months in jail](#) in the winter of '98-'99. Or spit in the eye of that no account federalist to put up with this. In the grave or not!"*

CARES ACT? Blasphemy!

If "your" government was permitted to "care". They might start with stopping the assault to intelligence that is the naming of their too numerous to mention, "Acts" of tyranny.

*Rise my descendants, rise.*

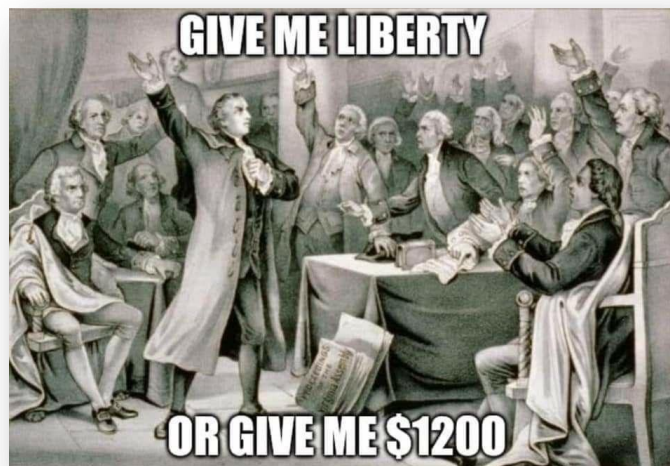

Any ACT that "CARES", would not be destroying economies of free exchange and establishing a culture that by any slick name you want to call it is, house arrests and [general warrants](#). We shot lobsterbacks over that once...

Those who "care" would not be wrecking food production and "[essential](#)" economic capacities while indebting you all on paper. All just to fill banks to the very top with newly printed money and even greater abilities to print more on their own... This is insanity as said by that smart young fella, [Albert](#).

*"All paper money returns to its intrinsic value, zero." Voltaire (1729)*

Didn't you kids read and learn that growing up like I did? Oh I forgot, [Prussian schools](#) now,,, that's the reason. These time changes get me sometimes. I'll get with it. Stick with me.

No,,, the government we designed would not even be able to bribe your simpleton neighbor with 1200 buckeroonies to passively accept, as *part of the deal*, over 13,000 dollars in taxpayer guaranteed paper (electronic now) debt on every man, woman, and child in the country.

Well, not if it was “our” government. If anyone would have tried that in my day. By morning, there wouldn’t have been a government to speak of. Heck, Burr shot Hamilton for less. Does not surprise me in the least to find that Hamilton is the [hero of money printers](#) today.

Times change but, you can fix it if you get to work. Turns out, Burr did us all favor. Sorry it didn’t last. Such is the idea of Eternal Vigilance to protect hard won freedom. It’s always the banks owned by the same families using the money. Remember that.

*The more things change the more they stay the same.*

All this to bail out [foreign banks](#) and [cronies](#) in secret? Do I have that right? You are letting this happen while sitting in your house not producing and not fighting either waiting to see if you will get sick? How does that come to be?

*Say it isn’t so!*

Well, I can’t. Turns out, while your neighbor is waiting for his next Federal Reserve (FED) breastfeeding, on his staycation. You should not be surprised to learn that the people at the top are deploying that 13K and [untold trillions](#) more created by,,, get this, “fractional reserve banking with a [ZERO percent reserve requirement](#)”. I didn’t make that up. I swear!

How is that for newspeak? It is right up there with Patriot Act isn’t it? That beats the heck out of plain old “quantitative easing” for “printing”. That is soooo, 2008. Or, as so many brilliant banker fans just say now, “[make press go Brrr](#)”.

Notice the red and white receipts being spit out the side of the printer in that video. Those are the treasuries you will be expected to pay back with interest as a “patriotic” American taxpayer to the privately owned FED bank cranking [money for nothing](#), and taking *your chicks for free* to private islands by jet.

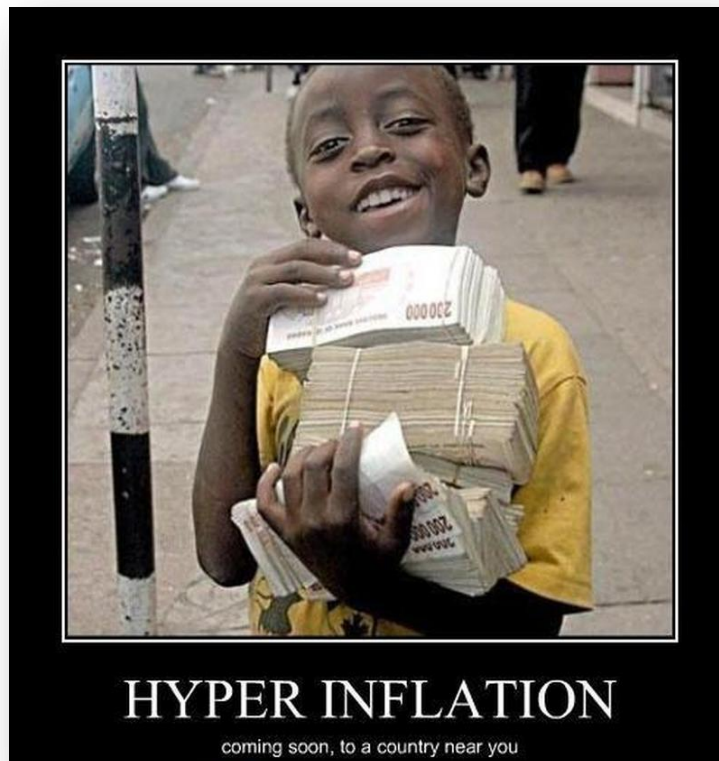

After all, there is no “reserve” in the FED anymore... Geez, it only took 107 years for you to figure out where that might be going. Well, “good morning sunshine”, welcome! We’re here!!!

With this now unlimited money supply at all levels of banking, they will buy anything you have left when all your other options for self-preservation are gone. They will do it with nothing but paper and your belief that it holds value while you only wish you could get a job moving refrigerators and color TVs.

You just [can't make this stuff up.](#)

That should be about the same time they stop the checks for your Cosmo Kramer neighbor next door. Tell Kramer next time he slides in your doorway, “welcome to Zimbabwe!”

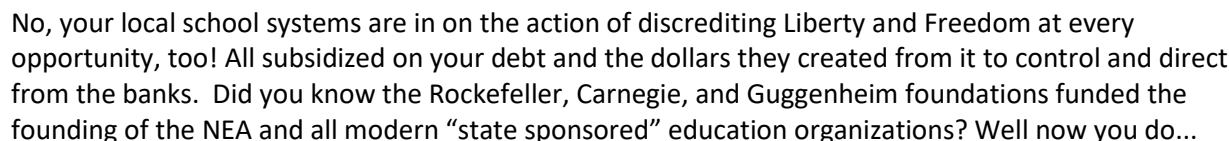

Anything you have left that has, not already been secretly siphoned. Or, lost in the last 4 generations of [financialization](#), theft and pillage, unconstitutional regulation, and market manipulation of, well,

**EVERYTHING!**

We cannot say, that you were not warned. My friend [Thomas tried.](#)

Of course present and former (*jet setting with your daughters*) propagandist scum bags of the money cartel like [Harvey](#) Weinstein, [paint Thomas](#) as negatively as possible for pay. The fact that the money printers fear Jefferson so much for his words and ideas 220 years later should inform you there is likely some value in [learning about this man](#). Hamilton too, for the inverse of it. These battles are not new.

Oh wait,,, you thought they “your” government [didn't fund](#) Hollywood boy/professional creeper, [Rapey Weinstein](#) and others directly with your national debt money? Man have you been missing out on the fun. They fund and control them all. And they are not alone, perish the thought.

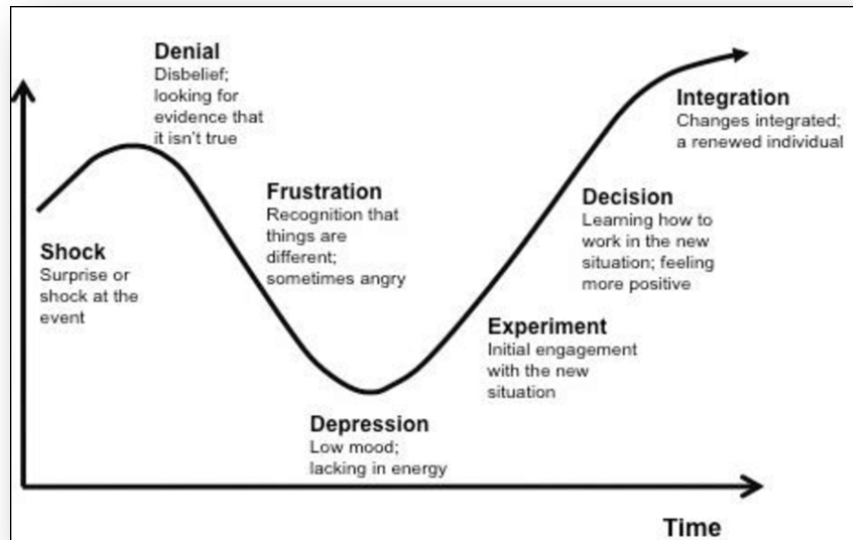

All this money and effort, just to get you not to think too much good, about the foundational ideas of Freedom and Liberty going back through the ages.

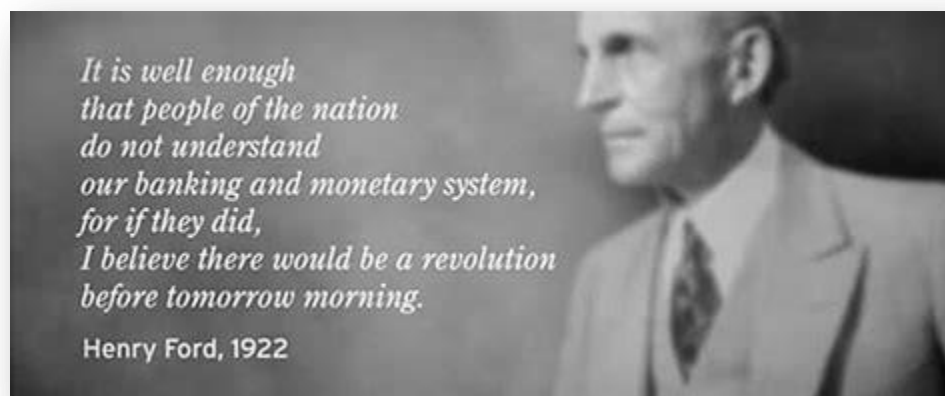

Remember they print the money for this and put the debt on your back. If you have been at this as long as I have, some 250 years now, you will find if you don't laugh you will certainly cry. So give yourself a break. It is a lot to take in, in one sitting.

Maybe, take a minute and think. Where you fall on the the Kubler-Ross scale today? Time stops for no man. Not even for those holed up with unlimited Internet, 6 months of food and booze, life-time Netflix and Amazon memberships and fresh tank full of that [negative rate oil](#) filling the emergency generator tanks to the brim.

Even Henry Ford mentioned the brazen hubris in [creating the FED](#). He made his comments 9 years after the Money Cartel had foisted it on to the people, Christmas 1913. He said:

So really, would diluting the value of existing money [propping up banks and “sophisticated” investment funds](#) while backing failing corporate monopoly models creating even more debt on your own head be your priority? If it was “your” government???

Triggering fear within us using deep, well understood, and incessantly think-tank-strategized, human psychological traits is one of the enemy tactics. Division through distraction and misinformation are secondary multipliers as you fall victim to your fears first.

Understand, there is an ability to target individuals to trigger customized fear responses using artificial intelligence that crawls all your social media and email services.

*Remember when you checked, “I agree” to sign up for that great new service or app?*

Are you thinking of it now? You should know, that doesn’t even count the content and metadata information “our” government steals from you with legal fictions outlined broadly in the Patriot Act and dialed with deadly precision to rules and policies at the agency level.

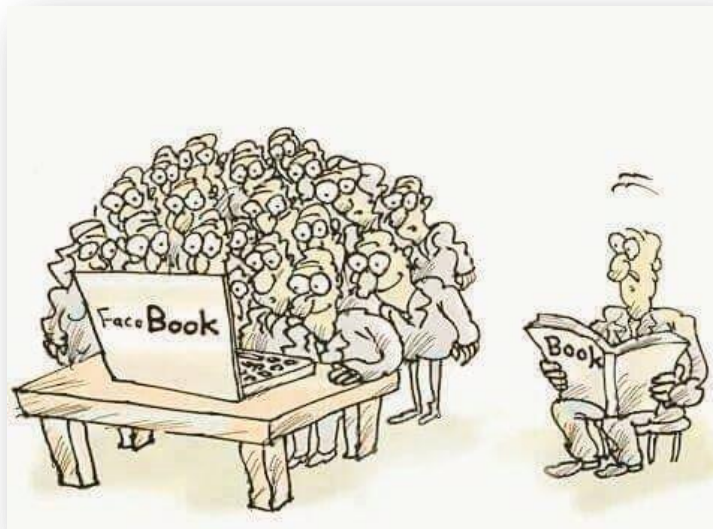

They are using these fictions in secret courts and committees abhorrent to the Constitution and the Declaration of Independence that once inspired this country’s very existence. The [FISA](#) court among them.

*For what is America but a tyrannically ravaged land mass if the core ideas of Freedom are no longer the minds of men who inhabit her?*

What stores that “our” government have “allowed” to open are text book experiments in control through information and psychology. Without making any leaps of logic, this ~~public private partnership~~,

excuse me, [fascist](#) surveillance system allows them to tailor suppression tactics to Urban or Rural, Left or Right ideologies. Even specific to sub-culture, religion, region, state, county, town, down to you and your families varied views. Watch them pit family member against family member [right here](#) already.

If you do not know who [Asch](#), [Bernays](#), [Milgram](#), and [Zimbardo](#) are, it is time to learn.

Asch's discovery of the ease in which an individual can be manipulated by the set, or conditioned reactions of those around them, is playing out today in our one-way trafficked, social-distanced corporate chain stores.

I can guarantee, no store that does not install this [Skinner box system](#) will be "allowed" to open if you let it continue with "your" government.

Good bye mom and pop shops. By design and plan, Miss American Pie too, if we do not reject this immediately. This wouldn't be happening if it was "our" government, I am sure...

*But "Lyon", you say, "Corona, Corona"! Well, we will get to that too. Hold your horses.*

Judy Mikovits, Luc Montagnier, and a host of other good doctors, [12](#), [10 more](#), [8 more](#), are catching up and exposing the lies and underlying evil. When the chickens come home to roast on this, I expect their psychopathic [intellectual idiot](#) heads to be figuratively chopped off, one head at a time. I plan to be there. You are invited too.

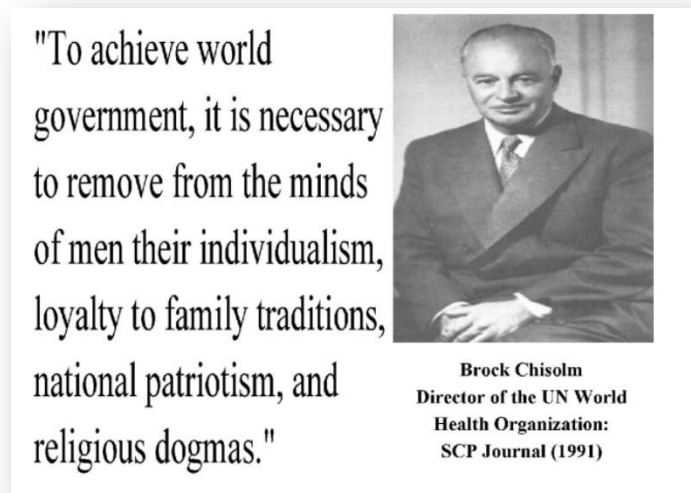

*You should make yourself aware of the following on COVID19...*

Those above your government have been [planning](#) (2010) this [for some time](#) (1974) and even [practicing](#) (2019) it right up until,,, surprise! It happened!!! Who could have guessed???

They even have a nice [homepage](#) for you to visit. Isn't [Hubris a grand trait](#) in psychopaths? It is like the villain exposing the entire plot, for you to become the hero... Who would have thought they would actually do that?

Interestingly enough they "guessed" correctly in [choosing their modeling](#) agent in, using a corona virus strain... Wow, they must be super smart.

Believe them when their [hubris](#) shows. Now that this is actually unfolding, the good people of world are catching up, and catching up fast on these criminals. And when we do...
